

Public Resources of The Missouri Bar Association

The MSTA Legal Services Department likes to provide you with resources that may address legal issues you encounter that are outside the scope of the employment and labor representation we provide.

The Missouri Bar Association website provides more than 50 brochures, booklets, and forms to the public. Topics range from probate and wills, to business, consumer, juvenile, and family law issues.

This information is located at www.mobar.org. Click on “Publications” at the top of the page to find these resources. If you have a question on any topics included at the Missouri Bar website, you can be assured that this is a reliable starting place for the answers you seek.
